

Model: AF-X Fireblocker CS

GENERAL TECHNICAL INFORMATION

fire classes	A, B, C & F
activation mechanism	heating element 1.3 - 3.2 Ohm resistance
activation current	electric (6-36V D/C 1.0 A for 1-2 sec)
test recording current	max 4 mA (0.04 A) within 5 min

SPECIFICATIONS

gross weight	2.373 g
weight extinguishing agent	150 g
discharge time	<15 sec
discharge openings	1
discharge length	150 cm
dimensions (h x diameter)	30 x 9,4 cm
outflow temperature 75°C	<15 cm
outflow temperature 200°C	<0 cm

PROTECTIVE REACH CONFORM CE NORM

EN 2 Class of fire	net m ³
A	2.9
B	3.1
C	5.4
F	2.1

Please note; In the design of the system one should always add a safety factor of 30%.

EXAMPLES OF APPLICATION AREAS

technical spaces	computer boxes electrical cabinets switch boxes
engine compartments	car bus train boat
machinery	CNC machines industrial machinery generators
